Problem Description: People often sight dangers at roads, streets, side walks, and/or electrical lines, but they do not have an easy way to report it.

Proposed Solution: More efficient way of reporting dangers to minimize hazards

Results

Creation of What’s Hazardous Bilingual Application

Creation of Website: http://whatshazardous.appspot.com/

The What’s Hazardous application is the beginning of a new type of awareness. It will lead to the prevention of catastrophic events, thereby providing a secure environment for everyone around the globe.
